"This work is practically the stock ed. of Beard and Rockwell's 'Treatise on the medical and surgical uses of electricity,' but Dr. Beard has been long dead and has had no connection with any of the revisions since the second. It has been thought proper, therefore, to issue the work as it now stands under the name of the present writer alone. The book has been thoroughly rev. and much of it rewritten, the old stereotyped plates having all been destroyed."
